

ROADMAP

FOR DISCIPLINED IMPLEMENTATION

Ever heard of anyone on the planet who gets more than 24 hours a day?

No one gets “special treatment”! Everyone gets 24 hours or 1,440 minutes per day—no more than that, but also never less. Yet, we never seem to have enough time!

On the downside, any time that is “wasted” is lost to us forever—we can never regain it.

But, there is an upside:

Each new day replenishes our time-account fully, with a new deposit of 24 hours or 1,440 minutes. Each new day offers us another opportunity to progress towards our goals, if we use our “new time” in conscious and purposeful ways.

The **Roadmap for Disciplined Implementation** offers school leaders and their teams a “map” for accelerated student learning. Then, it paves a “road” they can travel to realize those strong outcomes for all students.

The **Roadmap** is a step-by-step process for accomplishing your school improvement goals through **effective professional practices** and **conscious use of time**.

START OF THE SCHOOL YEAR

CHART THE COURSE

Annual Action Plan

Develop the continuous improvement plan for the school year, including: annual student achievement targets, educational priorities, professional development plan, and assessment calendar. Align resources (i.e., people, time, and money) to your Plan. Then, calendar the key activities and milestones and compile them in your consolidated CPR Card™.

EVERY WEEK

MONITOR & ADJUST

Instructional Monitoring, Feedback & Support

Monitor classroom instruction (minimum 10 hours per week) to assess individual, team and school-wide effectiveness; provide timely feedback and targeted coaching and modeling for teachers; and identify intervention for students. Then, calendar the key activities and milestones and compile them in your consolidated CPR Card™.

EVERY MONTH

LEARN & COLLABORATE

Professional Learning & Collaboration

Strengthen knowledge, skills and effectiveness of teachers, leaders and staff through year-round differentiated professional development, coaching and support aligned to the priorities in your Annual Action Plan. Then, calendar the key activities and milestones and compile them in your consolidated CPR Card™.

EVERY 6-12-WEEKS

REFLECT & PLAN

Data Summit™/Instructional Planning

Conduct evidence-based community conversations about student learning and professional practices at end of each assessment cycle or marking period. Develop a 6-12-week standards-aligned instructional plan at the start of the next assessment cycle or marking period. Then, calendar the key activities and milestones and compile them in your consolidated CPR Card™.

MID-YEAR / END-OF-YEAR

EVALUATE & CELEBRATE

Program Evaluation & Celebration

Complete a comprehensive, data-informed review of the effectiveness of implementation of your Annual Action Plan (and your Instructional Focus, as needed). Recognize progress and accomplishments of teachers, leaders, staff and students, and realign practices and resources, as needed, to further sharpen focus on student learning. Then, calendar the key activities and milestones and compile them in your consolidated CPR Card™.

The Roadmap for Disciplined Implementation (RDI) It's about time!

The Roadmap for Disciplined Implementation is a strategic approach to getting more out of the time that is available. It is a step-by-step guide for aligning your resources – i.e., people, time, and money – to the priorities you have set for your organization, your team or yourself.
